

# WOLVERINE

## FLUID POWER INC.

6515 HADLEY • RAYTOWN • MISSOURI 64133

Since 1980, the goal of Wolverine Fluid Power has been to provide our customer with superior pneumatic and specialty products, a high level of technical expertise and product availability from an outstanding local inventory. Wolverine provides assembly, testing, packaging as well as, design layout and testing of control panels. We pride ourselves when customers recognize that Wolverine Fluid Power has one of the largest pneumatic inventories available.

(SOME PRODUCT LINES NOT AVAILABLE IN ALL AREAS, Please call for verification)

80/20 is the manufacturer T-Slotted aluminum framing system that can be used for **Machine Guarding** OSHA Gen'l requirements (1910.212) Ships in 24 hours ARO. Send us a sketch and we will create drawing, and BOM using Auto-quoter X.

**Explosion Proof Valves** VA series (valve +actuator), ARES-ZEUS series Angle Seat valves, Automated ball valves: Fully ported, Electrical and or Pneumatic actuated, weather proof, explosion proof, 3/8" to 2" ports

Manufacturers of **Safety switches**: electro-mechanical switches, proximity switches and sensors, plastic-bodied switches and sensors, and metal-bodied switches and sensors.

Manufacturer of **2-Hand No-Tie -Down** components as well as pneumatic **Emergency Stop Buttons** and electronic control devices, Valves, Cylinders, fittings, modular components, pushbuttons, stainless steel cylinders, Electronic manifold cards, pre-piped circuit manifold subplates

Enertrrols industrial hydraulic shock absorbers can reduce damaging impact forces significantly enough to permit higher speeds and insure a safer work environment thru quieter impact **noise reduction**

**Bal-Trol Air Balance Hoists to reduce lifting / back problems**

Cable-Trol cable cylinders, Trac-trol guided & support cable cylinders, Duramaster

**Safety Couplers for Air hose.** Industrial connections for compressed air, vacuum and other fluids, low and medium pressure, including fittings, quick-acting couplers, tubing and valves.

**Non Metallic Enclosures and hose directed water protection.** Type JIC12,4 & 4X, Flange Mounted Disconnect, Pushbutton, (Type 1 &3R), Telephone Cabinets, JIC , Wall Mounted Single Door & Double Door, Panels & Replacement

**Safety Blow Guns & Safety Exhaust ball valves with lockout handles.** Tubing, special sizes, coils and printing. Instant Industrial and DOT, Polymatic, Composite, Brass and Nickel plated fittings. Blow guns, Couplers, and Brass Pipe connections

**Interference Sensing Module to retract door/ cyl when object in its path.** Pneumatic & electric driven actuators, control systems, ISO valves, Metric & Rodless Cylinders, Linear drive systems, Roller guides, Proportional Pressure Regulators

**Noise and heat reduction compared to Mechanical pumps** Multi-venturi compressed air driven vacuum pumps up to 30" Hg. Vacuum cups from 1/4" to 6" diameters & Filters and Switches. **Wolverine's vacuum wand to pick up objects from out of presses / molds ect.**

**Emergency stop module for Robot tool changers, and collision control devices.** DE-STA-CO Industries, providing clamping, gripping, transfer and robotic tooling solutions for workplace automation needs. Robohand product offerings include: robotic grippers, slides/thrusters, rotary actuators, and end effectors.

**Control Reliable Double valves for control of air on any application where failure for valve to shift will cause a potential safety problem. Also, LOTO, lockout tag out and Soft start systems.** Base or manifold mounted valves, ANSI, ISO, SAE, & Line mounted. Shuttle valves, Pilot operated Check valves, & Flow controls

**Presence-sensing industrial switching mats, cushioned sensing edges and bumpers, ribbon switches, interface controllers, Safety light curtain systems, Ergonomic Palm Buttons, Punch Press Automation Guards and Controls, Robotic, Automation and Special Machine Guarding Systems**

**Rod Clamp to lock cylinder rod in place if air pressure is lost.** NFPA cylinders 1-1/4" thru 10", Vane style rotary actuators, multi-motion devices, shakers, "Trantorque", pneumatic Ball valve actuators

**LOTO, Lock out tag out, Soft start valves and tamper proof regulators.** Air line filters, regulators, and lubricators. Precision regulators, coalescing filters, injection lubricators. Miniature, general purpose & modular types.
